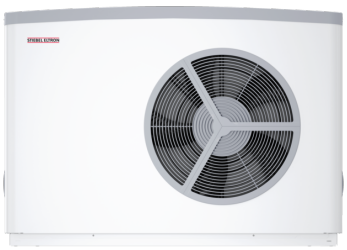
WPL 25 ACS

AIR SOURCE HEAT PUMPS

PRODUCT-NO.: 236643

Efficient heating with a top performer



When outside temperatures are far below zero, you'd rather be indoors in a well heated room. Providing you with a warm and cosy interior is no problem for this outdoor air source heat pump. It continues to operate at maximum efficiency even when the mercury drops below freezing. Furthermore, thanks to high flow temperatures, you can even use the appliance to heat traditional radiators.

Increase comfort at high temperatures

In combination with underfloor heating or fan coil units, you can easily cool your home to pleasant temperatures with this version. For high quality of life at home all year round.

The main features

- Air source heat pump installed outdoors for heating and cooling
