smart ease.

Solar & energy-efficiency equipment that pays for itself

When it comes to cutting energy costs and reducing your organisation's carbon emissions, choosing solar and energy-efficiency equipment makes sense.

With Smart Ease Payment Plans for solar panels, storage and other equipment, you can start saving instantly, take control of electricity costs and move towards your sustainability goals.

Payment Plans for solar are as easy as 1, 2, 3.

1
Get solar equipment[1]

Apply for a Payment Plan in under 4 mins, get approved instantly[1] and pay nothing up front – so you can get solar equipment straight away.

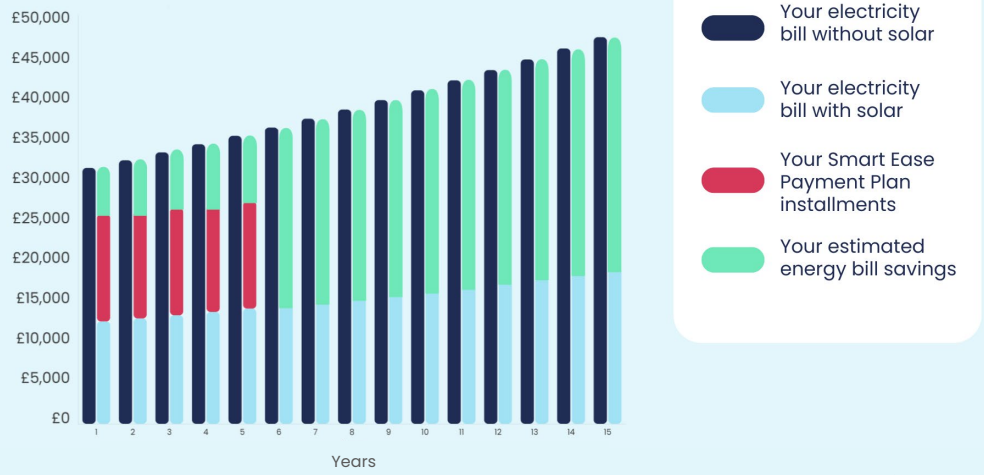
2
Start saving energy

Once your solar equipment is installed, we pay your supplier – so you can start taking advantage of reduced energy costs from day one.

3
Enjoy a cash-flow positive position

The savings[2] on your energy bill are typically greater than your Payment Plan instalments – which makes your purchase cash-flow positive.

Comparison: annual electricity bill*



* Indicative only

The Smart Ease difference

- ✓ No upfront payments
- ✓ £150k instant approval[1]
- ✓ Competitive rates
- ✓ 4-min application & fast approval
- ✓ Lower energy bills[2]
- ✓ Up to 10-year payment terms[3]
- ✓ Stay on top of cash flow
- ✓ Tax benefits[4]

About Smart Ease

Energy-efficiency technologies are vital for building a better future – for our environment, communities and for businesses too. These technologies need funding and that's where Smart Ease comes in.

When it comes to payment solutions for energy-efficiency equipment, Smart Ease delivers competitive rates, fast approval and a dynamic, responsive experience. We provide a full suite of options, giving you flexibility and freedom to choose funding arrangements that suit your business goals.

(1) Subject to credit criteria and approval. (2) Savings are indicative only and depend on several factors. Your solar specialist can discuss this with you. Smart Ease is a separate and unrelated entity to your solar and energy-efficiency equipment supplier and/or installer. Smart Ease solely provides payment solutions. Your equipment supplier and/or installer, not Smart Ease, is responsible for any regulatory approval, network connections, performance or service issues, product warranties or other benefits (as applicable) after installation. (3) 10-year terms available for Payment Plans over £200k or in special circumstances. (4) Seek independent financial advice to determine whether this applies to your organisation.

Equipment we fund

- Solar power & storage
- Evs & EV chargers
- Voltage optimisation & Power factor
- Chillers, boilers & HVAC
- Water heating & purification
- Heat pumps
- Efficient lighting
- Power generators

"On this site alone, we're saving over 40% of our energy usage. With those savings, we are able to make the monthly instalments – it's a no brainer!
